

KOHL'S®

Store Process Planning Intern

That just sounds impressive.

The Store Process Planning Intern will work to understand store operations, identify areas of process improvement, and make recommendations for changes that will drive operational efficiency and/or elevate the associate experience. He/She will partner with various teams and subject-matter-experts to identify largest in-store areas of opportunity based on potential return on investment. The intern will be responsible for researching and proposing a solution(s) while keeping the customer and associate experience in mind.

What you'll do

Work to determine improvements within the process, equipment, or operations within the store

Partner cross functionally with teams and departments throughout the organization

Spend time learning the ins and outs of each process area within stores

Determine the impact technology can have to improve the customer and associate experience

Possible career path
